**Attachments:** Response to Rep. Mucarsel-Powell Request on Oxitec ewb.eam2 06 18 2020.docx

Hi, Christina. After thinking about the comments on the congressional inquiry I sent you yesterday evening, I thought it might be advisable to modify still further paragraph #5. I thought the last sentence of the paragraph was too technical and did not explain our thinking well enough. Here is my suggested modification:

## Ex. 5 Deliberative Process (DP)

I've also attached a word file with the corrections made to paragraph 5.

**Subject:** RE: Response to congressional inquiry

Hi, Christina. Please find attached a file with my comments. Because I modified paragraph #5 substantially it would be good if Mike and Eric could take a look.

Let me know if you need anything else.

Thanks Eric, I appreciate the feedback. Elizabeth and Mike, if you have any additional comments, please add them to Eric's copy by COB today, if possible. Would be helpful to work from one document. Thanks so much!

Best,  
Christina

Hi there,

Thanks for your help on this, it was great. Could I get your eyes on this letter? I repurposed a lot of your language but wanted to make sure it reads correctly to your team. This was held up but now it is moving pretty quickly, please review at your earliest convenience. Thanks!

Thanks!

**Subject:** Response to congressional inquiry

Hi, Christina. Please find attached a file providing technical comments to help you in responding to the Megan Hull letter. Let me know if this works. Or if you have any questions concerning what I have done. Also I can review the letter you write if that would help.

I've turned to the letter from the Florida Keys Environmental Coalition, but that one looks mostly like demands for materials that are now in the docket. How do you want to handle that one?
